

What happens in your garden after dark.

**YOU ARE INVITED
TGCI Southeast District
Fall Meeting
September 23, 2026
at Whittington's Barn***

Hosted by the Mudlarks, a Garden Club of Bartholomew County

Eastern Daylight Time Zone

8:30 am: Doors open for registration check-in.

Enjoy snacks and beverages while greeting other gardening friends.
Check out the informational exhibits and fantastic items on the raffle/sale table.

9:30 am: The official meeting begins.

Meet the 2026-28 SE District officers, who will conduct the meeting and present annual reports.
Southeast District clubs will report on their activities.
Officers and project chairs of The Garden Club of Indiana, Inc. will update you on
state projects, business and answer your questions.

**From our program presenters, you will learn about the important benefits
to our plants and trees provided by nocturnal pollinators.....
surprising facts about moths, bats, beetles and other insects.....
what plants attract these nighttime visitors.....
how their survival is threatened by habitat loss, light pollution and climate change.**

Lunch will be served, and we may even be visited by a firefly.

**Join us for informative and fun facts, many surprises throughout the day,
door prizes and more before mid-afternoon adjournment.**

*Map and directions to Whittington's Barn
will be sent with your registration confirmation.

**For any questions, please contact
Sharon Baldwin,
skbald@sbcglobal.net or 812-343-2230.**
